**Editorial Information**

*Accounts of Chemical Research* publishes concise, critical reviews of research areas conducted under active investigation. Most articles are written by scientists active in the area reviewed. Reviews may be concerned in large part with work in the author's own laboratory, providing that relevant contributions by other investigators are mentioned sufficiently to place the author's research in perspective.

Articles should be directed concurrently to a general audience of research-minded

chemists and to scientists directly concerned with the subject of the article. In general, the first four or five pages of the manuscript should be directed mainly to the general reader, providing background and orientation as well as discussion of specialized terms or concepts. Because of the limited amount of journal space available, the usual maximum allotment per article is 6 journal pages, corresponding roughly to a total of 25 pages of manuscript, including tables, bibliography, and drawings.

Most reviews are written in response to invitations issued by the Editor. Unsolicited manuscripts are also considered.

Manuscripts for publication and editorial correspondence prior to acceptance of manuscripts for publication should be sent to Joseph F. Bunnett, Editor, University of California, Santa Cruz, Calif. 95064.

Manuscripts should be prepared in accordance with the general instructions given in the American Chemical Society "Handbook for Authors." They should be typed, double-spaced, and should be submitted in triplicate.

*Additions and Corrections* are published in the December issue.

Correspondence regarding **accepted papers and proofs** should be directed to the Editorial Department at the address below.

**Bulk reprints or photocopies** of individual articles are available. For information write to Business Operations, Books and Journals Division at the ACS Washington address.

Requests for **permission to reprint** should be directed to Permissions, Books and Journals Division at the ACS Washington address.
